

ADMISSION FOR INTERNATIONAL CANDIDATES

Non-Lebanese candidates who have studied in First, Second and Third Secondary classes in an institution abroad benefit from certain special provisions in case of file-based selection, entrance exam-based admission during the regular period, or admission based on the overall average of the French Baccalaureate official exams. Candidates must specify in their application whether or not they have applied for Admission for International Candidates. They may also be candidates for Regular Admission.

File-Based Selection Admission

International candidates who apply for Admission for International Candidates are allocated a quota of spots set by the institution in question.

Entrance Exam-Based Admission

International candidates who apply for an Entrance Exam-Based Admission during the regular period are allocated a quota of spots set by the institution in question. The exam curriculum is the same as that of the Regular Admission.

Baccalaureate Average 18.5/20

Candidates who have obtained an overall average of 18.5/20 or more in the French 2024 Baccalaureate can enroll at the institution of their choice under one condition: that the baccalaureate track corresponds to the requirements of the chosen institution. They have until Friday, August 16, 2024 to confirm their choice and present a certified copy of this diploma with the grade certificate.

Baccalaureate Average 17/20

Candidates who have obtained an overall average of 17/20 or more in the French 2024 Baccalaureate, can enroll at the institution of their choice, except for the Faculty of Medicine and the Faculty of Dental Medicine, under one condition: that the baccalaureate track corresponds to the requirements of the chosen institution. They have until Friday, August 16, 2024 to confirm their choice and present a certified copy of this diploma with the grade certificate.

Special Provisions for Lebanese Candidates Living Abroad

For Lebanese candidates who have completed all their secondary education in an institution abroad and who have applied to a program where the selection method is based on a file study, an adjustment factor for their school will be calculated so as not to disadvantage them over candidates applying from well-known schools at the University.
